

**Mississippi Department of Transportation  
Response to Questions  
Received June 28, 2008 – July 4, 2008  
Regarding the Airport Parkway Project**

**Question:** In order to comply with the requirement of the point 4.1 “General / Format” of the RFQ which limits the number of pages of the volume 1 to 60, please confirm whether these assumptions are correct:

1. The letters to be added to the “Form A” signed by each member of the team could be added as attachment to the SOQ. We consider that these letters are not part of the 60 pages.
  - a. Depending of the number of members of the team, the number of pages utilized for the form A could be greater as expected and we think that we can include the form A in the volume 1 and the letters as attachment.
2. Form B could be added as an attachment to the SOQ. If a form B have to be submitted by each responder, equity member, financial responsibility owner and major non equity members, more than 10 pages could be used only in this form.
3. Form C could be added as an attachment to the SOQ. If a form C have to be submitted by each responder, equity member, financial responsibility owner and major non equity members, more than 10 pages could be used only in this form.

**Answer:**

1. Form A and the appended letters will be allowed as an attachment. This will be clarified in the addendum to the RFQ.
2. Form B will be allowed as an attachment. This will be clarified in the addendum to the RFQ.
3. Form C will be allowed as an attachment. This will be clarified in the addendum to the RFQ.
